I declare that I truly am a supporter of individual and collective wealth. First, I will pay myself 10% of my earnings consistently every paycheck. Second, I will assist 12 people in being wealthy every year.

I agree that wealth is a necessary for me and all humans. Wealth is human right. A people and family are only as strong as they are wealthy. I also agree that, I have a **"WEALTH PLAN,"** for me and my family for generation to generation-legacy. I also know that wealth is a holistic perspective not just about money, but everything.
